for an updated version of these instructions.

You can also call us at 800-752-0725 from 9:00 a.m. to 4:00 p.m. EST Monday - Friday.

II. SETTING YOUR MITER GAUGE

Your miter gauge will need a fence for proper reference as the miter gauge head alone may not be long enough. A simple MDF fence will suffice.

- A. Place your miter gauge on a tabletop and loosen the miter gauge pivot lock. **Figure A.**
- B. Slide the Miter Gauge Setup Block onto the end of the miter bar with the desired angle towards the fence.
- C. Press the Miter Gauge Setup Block against the fence and adjust the angle until the fence contacts both reference points.
- D. Tighten the miter gauge pivot lock.

To install the wall-mount hanger, follow the diagram in **Figure B.**

FIGURE A

FIGURE B

WARNING! To reduce the risk of injury keep hands away from moving parts. Refer to your power tool manual for proper setup and use.

WARNING! To reduce the risk of injury, wear safety goggles or glasses with side shields, ear protection & a dust mask.
